

Is it possible to provide quality faith formation for every adult in your parish?

We think it is possible for our parish faith communities but it will require some vulnerability to be open to creativity, innovation and change. The Adult Faith Formation Innovation Lab is an initiative to guide parish leadership teams in developing a plan that can engage every adult around their interests, concerns, questions, and spiritual and faith journeys; in designing new programming for young adults, midlife adults, mature adults, and/or older adults; and in utilizing digital media and methods to facilitate faith growth.

In the 21st century, the abundance of high quality digital media and resources for adults, and the new online and digital tools and technologies makes it possible to provide faith formation for every adult.

Innovation Labs are interactive, collaborative learning and design experiences for parish leadership teams to create new projects in **faith formation**.

- The goal of each Lab is to design and implement new initiatives that have the potential of being transformative for a parish faith community.
- Each Innovation Lab brings together parish teams from across the Diocese to design new strategies, programs, and activities to implement in their parish.
- Over a six month period, the parish leadership teams will meet for 2 day long workshops and 2 live webinars. The bulk of the work will take place back in the parish.
