PATHWAYS:

Faith Formation this year will not look the same, which provides us with the opportunity to make a shift. Introducing a brand new online faith formation program: Pathways. Pathways is an integrated and family centered formation suite designed to facilitate and sustain a lifelong development of faith within the family. The suite includes three types of essential formation: ongoing, progressive, and immediate. Ongoing formation focuses on the Sunday experience, providing reflections rooted in the Word of God throughout the liturgical year. Progressive formation accompanies a family through a series of essential moments focusing on evangelization and catechesis. Immediate formation focuses on catechesis to receive the Sacraments. All of this content can be delivered over our online formation management system. The suite can be used in parts or in its entirety, tailored to your parish's needs.

For further information and a free trial of our formation management system visit our website www.fflcm.org/pathways or contact our team to set up a meeting at nourish@fflcm.org. Together we can bring more families home.
